

Hello, I'm Mitha BM

B.Tech IST Student | AI & Data Science Explorer | Learning and Innovating

[View Projects](#)

About Me

Passionate about technology and constantly exploring the world of AI and Data Science. Currently pursuing B.Tech in Information Science, where I'm building a strong foundation in programming, problem-solving, and data-driven decision-making. I love combining creativity with technology to build useful and impactful projects. Whether it's coding or understanding how to solve real-world problems, I'm always eager to dive deeper. Excited to connect with like-minded individuals, share knowledge, and grow in this evolving tech landscape! In the short term, I aim to excel in my studies and participate in academic projects, certification and internships to enhance my practical knowledge. My long term goal is to become an expert in the field of IT industry by working on innovative technologies to solve real world problems. I also aspire to contribute advancements to Tech industry.

Skills & Interests

Skills

- HTML & CSS
- Python Programming
- Arduino Projects
- UI/UX Designing
- Problem Solving

Interests

- Hackathons
- Web Development
- Creative Designing
- Tech innovation
-

Certificates

Microsoft AI Skills Challenge

Completed AI learning challenge by Microsoft.

Infosys Springboard

Completed programming and technology courses.

Ignite Bootcamp

Idea: To Plan - Certification of Participation - Wadhvani Foundation.

Smart India Hackathon

Certificate of Participation in the category of Transportation and Logistics.
